INTERESTS

- I maintain an active and healthy lifestyle and enjoy sports, particularly tennis.
- Interested in discovering new cultures.
- I enjoy reading and continuously expanding my programming knowledge in my spare time.

João Costa

PROFESSIONAL SUMMARY

Freelance Full-Stack Web Developer with hands-on experience developing websites and web applications tailored to real business needs. Since January 2025, I have worked as a freelancer, managing the full project lifecycle, including requirements gathering, frontend and backend development, testing, deployment, maintenance and support. I am looking to join a team where I can apply this experience, continue developing my technical skills and contribute to products that deliver real impact.

PROFESSIONAL EXPERIENCE

- Freelance Full-Stack Web Developer** (Aveiro, 01/2025 – Present)
I develop websites and web applications tailored to the real needs of each business, managing the entire process.
From requirements gathering to deployment, maintenance and support.
- Decathlon – After-Sales Service** (Part-Time) (Aveiro, 06/2025 – 06/2026)
Customer service and management of after-sales processes, including exchanges, returns, warranties, repairs and complaints.
Recording and resolving requests while coordinating with internal teams, ensuring clear communication and compliance with deadlines.
- Portuguese Navy – Military Service** (Almada, 03/2017 - 02/2024)
Position: Seaman
Member of the navigation team aboard the Portuguese Navy training ship NRP Sagres, operating navigation equipment, meteorological instruments and nautical charts.
Participated in three international missions aboard the NRP Sagres, travelling to Cape Verde, Brazil and Colombia.

EDUCATION

- EDIT - Disruptive Digital Education** (Porto, 03/2024 - 11/2024)
Certificate: Full Stack Development (**Final Grade:** 15/20)
- ETNA – Naval Technologies School** (Lisboa, 02/2016 - 02/2017)
Certificate: Operations Course (**Final Grade:** 16/20)
- Dr. Mário Sacramento Secondary School** (Aveiro, 09/2007 - 11/2014)
Certificate: Scientific-Humanistic Course in Socioeconomic Sciences (**Final Grade:** 14/20)

PERSONAL PROJECTS

- Farmácia/SantaCasa – Full-Stack Platform**
Full-stack platform for Pharmacy, Santa Casa and System/Admin areas, featuring JWT-based authentication and access control, patient management, prescriptions, medication orders, validation workflows, reconciliations, history, alerts and user management.
Stack: React, Vite, CSS Modules, Node.js, Express, Prisma, PostgreSQL, Vitest, GitHub Actions and Render.
- Sunlive Group – Multi-Brand Corporate Platform**
Multi-brand corporate SPA for Sunlive Group, Travel, Sports and Hotel, featuring dedicated routes, shared components, brand-specific visual theming, lazy loading and responsive design.
Stack: React, Vite, React Router, CSS Modules, JavaScript, ESLint and Vercel.
